Email: areebkhan619@gmail.com

CAREER HIGHLIGHTS

- 3+ years of experience with Front End development as a lead / co-lead; Focused in MERN Stack.
- Developed over 13+ maintainable projects, almost all of them from scratch in JavaScript / TypeScript.
- One project was inaugurated by the Dalai Lama; Another won national and international grants and awards.
- Have 5+ course certifications by renowned providers as a Front End Developer, mostly concerned with ReactJS.

RELEVANT EXPERIENCE

ChimpsAtWork Studios - *Software Development Engineer II*

JAN 2022 - PRESENT

- Led web development in ReactJS for two major projects in TypeScript.
- Accelerated development process across platforms with shared code by managing and setting up monorepo codebase with Lerna.
- Improved wait times and UX by implementing optimistic updates and response caching in the front-end with TanStack Query.
- Increased code reusability by contributing to the npm component library for creating flexible components with StoryBook.
- Updated the implementation of logging infrastructure from a platform-dependent to cross-platform one, which now acts as a blueprint for other projects in the organisation.

Other tools used: Redux, styled-components, Segment, Sentry, SASS

EmerTech Innovations - *Lead Front-End Developer*

JUNE 2019 - MAR 2022

- Co-led the development for Blockchain-enabled Farm to Fork Traceability & Transparency Solution for Supply Chains.
- Solution won 1st prize in the inaugural Inspiring Futures event held at UAE.

-
- Increased the throughput by more than 60% by automating the label printing and unique QR code generation process by developing backbone software with MERN and Puppeteer.
 - Increased client revenue and user-engagement by generating more than 5 million uniquely traceable QR codes with customised responsive and interactive trace screens.
 - Trained 30+ company interns in interactive bootcamp tutorial sessions for ReactJS.

PERSONAL PROJECTS

- [Portfolio \(areeb.co.in\)](https://areeb.co.in)

Portfolio website created with ReactJS with animations using Framer Motion.

- [2048 Game](#)

Classic game of 2048 in ReactJS. Was addicted to the game; thought of making a version of it myself.

- [Sticky Notes](#)

Draggable sticky notes. My first ReactJS Project.

- [Movies Explorer](#)

App created using MERN stack which acts like a movie explorer for browsing, managing and playing stored movies, with offline metadata caching (like Plex).

CERTIFICATIONS

- [Front End Web Development in React - Coursera \(with the Hong Kong UST\)](#)
- [Front End Certification \[React, Redux, SASS\] - freeCodeCamp](#)
- [React - HackerRank](#)
- [React - TestDome](#)
- [NodeJS, ReactJS, MongoDB - LinkedIn](#)
- [Computer Networks and Internet Protocol - NPTEL](#)

EDUCATION

Govt. College of Engineering, Aurangabad - *Bachelors of Engineering in Computer Science*

JULY 2016 - OCT 2020

GPA: 7.6

Tyndale Biscoe School, J&K - *Higher Secondary Education*

NOV 2002 - NOV 2015

GPA: 8.6
