

# Mohammad Areeb Khan

## Senior Front-End Engineer | React · React Native · TypeScript

Srinagar, India (Open to Remote) | areebkhan619@gmail.com | linkedin.com/in/mareebkhan | areeb.co.in

### SUMMARY

Senior Front-End Engineer with 6+ years of experience building React and React Native products for clients in Israel, Malaysia and India, fully remote. Currently lead front-end on Reeco's hospitality procurement marketplace (web + mobile). Strong in front-end architecture (monorepos, component libraries, caching and offline-first data layers), authentication, and mentoring teams. Past work includes a traceability platform that gave 5M+ products a unique identity and a blockchain app inaugurated by the Dalai Lama.

### TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3

**Front-End:** React.js, React Native, Next.js, Redux, TanStack Query (React Query), Tailwind CSS, styled-components, Chakra UI, Material UI, Ant Design, Framer Motion, SASS, PWA, i18n

**Architecture & Tooling:** Storybook, Monorepo (Lerna), npm, Git, Sentry, Segment, REST APIs, RBAC, JWT / Authentication

**Testing:** React Testing Library

**Back-End & DB:** Node.js, Express.js, MongoDB (MERN), Flask, Puppeteer

### PROFESSIONAL EXPERIENCE

#### REECO

Remote

Software Development Consultant (Contract)

Jan 2023 – Present

Joined directly after building Reeco's Back Office, Seller and Buyer apps through CAW Studios.

- Delivered the customer-facing Buyer app, a B2B marketplace connecting hotels with suppliers, by building Store, multi-stage Orders and Accounts Payable (invoices, statements) modules in React and TypeScript with role-based access control (RBAC).
- Launched Reeco's mobile app by building it from scratch in React Native with offline support and optimistic updates, shipping stable Android and iOS releases and overseeing later versions, resulting in reliable ordering on unstable hotel networks.
- Expanded the product suite by building the Corporate Platform app for multi-property oversight and rebuilding the company website with CMS integration, while leading and mentoring developers through PR reviews across repositories.

**Tech:** React, React Native, TypeScript, TanStack Query, Storybook

#### SUPERTOKENS

Remote

SDE Consultant (Contract)

Jan 2023 – Apr 2023

- Built SuperTokens' public JWT Encoder/Decoder tool by implementing signature validation for 6 algorithms (HS256, HS384, HS512, ES256, RS256, PS256), giving developers a way to debug tokens on the company site.
- Strengthened sign-up security by adding session-based authentication to the Node.js back-end SDK, resulting in a safer and smoother sign-up flow.
- Migrated legacy front-end code to the latest SDK, added theming support to the sign-up page, and fixed UI bugs in the user management dashboard.

**Tech:** React, TypeScript, Node.js, JWT

#### CHIMPSATWORK (CAW) STUDIOS

Hyderabad, IN (Remote)

Software Development Engineer II

Jan 2022 – Jan 2023

- Launched BeTagged, a social media marketing platform for a Malaysian client, by leading its React and TypeScript web app from scratch and mentoring junior developers through daily code reviews.
- Eliminated duplicate business logic across web and mobile by setting up a Lerna monorepo and cross-platform logging with Segment and Sentry, later adopted as the organization's logging blueprint.
- Cut wait times across Reeco's 3 TypeScript apps (Back Office, Seller, Buyer) by adding optimistic updates and response caching with TanStack Query and building a shared Storybook component library.

**Tech:** React, TypeScript, Redux, TanStack Query, Chakra UI, styled-components, Storybook, Lerna, Segment, Sentry, Nivo

## EMERTECH INNOVATIONS PVT. LTD.

Lead Front-End / Full-Stack Developer

Nashik, IN

Apr 2020 – Mar 2022

Promoted from Front-End Developer Intern.

- Increased daily label-printing throughput by 60%+ by building a Node.js print driver and React dashboard that automated QR-coded label generation, replacing a slow proprietary process.
- Gave 5M+ products farm-to-fork traceability by designing and building 5+ custom trace screens on a blockchain-backed MERN platform (QRiosity), adopted across 3+ supply chains and winner of 1st prize at Inspiring Futures (UAE).
- Reached farmers with limited tech experience by building a React Native Android app and a PWA with multilingual (i18n) support; also led front-end for Invento ERP and trained 30+ interns in React bootcamps.

**Tech:** React, Redux, React Native, Node.js, Express, MongoDB, Ant Design, Puppeteer, JWT

## EMERTECH INNOVATIONS PVT. LTD.

Front-End Developer Intern

Nashik, IN

Jun 2019 – Apr 2020

- Built DhammaEdicts, a MERN web app storing the Buddhist Tripitaka scriptures on the blockchain, and co-implemented its JWT authentication; the project was inaugurated by the Dalai Lama at the Global Buddhist Congregation 2019.

## DIGITAL IMPACT SQUARE (TCS FOUNDATION)

Innovator (Social-Innovation Fellowship)

Nashik, IN

Jun 2019 – Apr 2020

- Built the corporate website for Sahyadri Farms, India's leading Farmer Producer Organisation, resulting in ~10K impressions per month.
- Built the HortiSquare farmer outreach website, letting farmers apply for skill training and incubation.

## EDUCATION

### Government College of Engineering, Aurangabad

Bachelor of Engineering (BE), Computer Science · CGPA 7.6/10

Aurangabad, IN

2016 – 2020

## CERTIFICATIONS

- Triplebyte: React (Expert) & Front End (Advanced)
- TestDome: React (Top 10%) · HackerRank: React · CutShort: JavaScript (Advanced)
- Coursera / HKUST: Front-End Web Development with React · freeCodeCamp: Front End Certification (React, Redux, SASS)
- NPTEL: Computer Networks and Internet Protocol (Top 5%)

## PUBLICATIONS & AWARDS

- **Empowering Farmers with Blockchain-Based Transparency Throughout the Value Chain**, Indian Society of Plant Genetic Resources, Sep 2022
- **1st Prize**, Inspiring Futures (UAE), for the QRiosity traceability solution
